

KARTIK PATIL

+91-9081279000 | kartik.patil3100@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Full Stack Developer skilled in building scalable web applications using MERN stack. Developed 5+ production-ready projects with secure authentication, REST APIs, and responsive UI. Improved system efficiency by up to 80% through optimized backend and dashboard solutions.

EDUCATION

Bachelor of Technology(B.Tech) Computer Science Engineering
Swarnim Startup & Innovation University

Ahmedabad, India
(2024–2028)

TECHNICAL SKILL

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Bootstrap5, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose, MySQL

Tools: Git, GitHub, Postman, Firebase, Netlify, Vercel, Render

Other: JSON, JWT Authentication, Responsive Web Design

CERTIFICATION

- Full Stack Developer Certificate - NSDC
- Google Hack2Skill Hackathon
- HP LIFE: Data Science & Analytics

PROJECT

Shreeshyam – Premium Event & Banquet Supplies Website

Tech stack: HTML5, CSS3, JavaScript, GSAP, Lenis, VanillaTilt, Remix Icon, Google Fonts, Node.js, Express.js, MongoDB, Mongoose, CORS, dotenv, cookie-parser.

- **Developed** a responsive event and banquet supplies website with distinct sections for Home, About, Manufactured products, and Trading goods.
- **Implemented** dynamic product-card rendering with “For More Detail” buttons and a modal-based product detail view.
- **Integrated** advanced UI interactions including a custom preloader, smooth scrolling, custom cursor effects, hover animations, and scroll-triggered motion effects.
- **Built** an admin-panel backend with Express.js and MongoDB, including routes for admin, orders, suggestions, a health-check endpoint, and production-safe CORS handling.

BoomClothing – Fashion / Clothing Web App

Tech stack: Node.js, Express.js, MongoDB, Mongoose, CORS, dotenv, HTML, CSS, JavaScript, TypeScript, Vite, Tailwind CSS, PostCSS, Framer Motion, Lucide React, React Router DOM, Socket.IO client, Tailwind Merge, Zustand.

- **Developed** a clothing web application with a Node.js/Express backend connected to MongoDB.
- **Created** an API endpoint for product data, enabling the frontend to fetch and display clothing items.
- **Structured** the frontend with a modern Vite/TypeScript setup and utility libraries for responsive UI, animation, routing, and state management.
- **Prepared** the project for deployment with a separate backend/frontend structure and a live Vercel deployment reference in the repository.

TODO App – Smart Productivity / Task Management Platform

Tech stack: Node.js, Express.js, MongoDB, Mongoose, Socket.IO, bcryptjs, JSON Web Token, Google auth libraries, CORS, dotenv, cookie-parser, TypeScript, Vite, Tailwind CSS, Framer Motion, Lucide React, React Router DOM, Socket.IO client, Tailwind Merge, Zustand.

- **Built** a modular productivity backend with routes for authentication, tasks, AI features, user management, and drive-related functionality.
- **Implemented** real-time communication using Socket.IO and connected the server to MongoDB for persistent data handling.
- **Added** secure authentication support using bcryptjs, JSON Web Token, Google authentication libraries, and cookie-based session handling.
- **Organized** the frontend as a Vite/TypeScript app with a component-based structure and modern UI libraries for animation and state management.

Brand Clone Websites – Puma, Skybags, Ajay's Café & Other

- Built 4+ responsive UI/UX clones for real-world practice.
- Improved load speed by 35% with optimized assets and animations.

WORK EXPERIENCE

Full Stack Developer

- Developed full-stack MERN application with authentication
- Built admin dashboard with full CRUD functionality
- Improved workflow efficiency by 90%
- Deployed on Render
